EDUCATION

Vidush Somany Institute of Technology and Research

B.E. in Computer Engineering; CGPA: 7.4

Gandhinagar, Gujarat

Sep. 2022 – April 2026

TECHNICAL SKILLS

Full Stack Development: React.js, Next.js, Tailwind CSS, Node.js, Express.js, RESTful APIs, PostgreSQL, MongoDB

Languages: Python, JavaScript, TypeScript, C/C++, java

AI/ML and Cloud: Machine Learning, NLP, TensorFlow, PyTorch, Generative AI, AWS, Google Cloud

Tools and Utilities: Git, Postman, VS Code, Cursor, Docker

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS

EXPERIENCE

Tech Ahir Private Limited

Software Developer Intern

Jan 2026 – Present

Gandhinagar, Gujarat

- Led development initiatives for the modernization of a **legacy SaaS platform** within a **5-member Agile team**, delivering **80%+** of core product modules in **3 months**.
- Developed **reusable frontend systems** and optimized **backend architectures**, increasing **engineering productivity** by **35%** across **APIs** and **UI workflows**.
- Collaborated with **founders** and **development teams** to drive **feature planning**, **sprint management**, and **end-to-end product execution**.

EY GDS & AICTE

MERN stack Developer

Dec 2024 – Jan 2025

- Created Hymnics**, a Spotify-like music streaming app with **3+ key features** including secure login, playlist management, and real-time music playback, built using the MERN stack and adopted by **100+ test users**.
- Implemented personalized music recommendations** and an advanced search system, enabling users to discover **50% more** new songs and artists, significantly improving engagement rates.
- Optimized backend and frontend performance**, reducing load times by **40%** and increasing user interaction by **25%**, resulting in a smoother listening experience.

PROJECTS

MediHUB | *Next.js, TypeScript, Docker, PostgreSQL*

Github

- Built a **centralized healthcare collaboration platform** featuring **real-time messaging**, **medical news feeds**, and **event coordination** tools for **500+** doctors, students, and researchers.
- Developed an **AI-powered PDF summarizer** and **digital medical notebook** with intelligent study insights, improving research and learning productivity by **40%**.

Drishti | *AI/ML, MERN Stack, WebSockets, OpenCV, GenAI*

Github

- Created an **AI-driven public safety platform** with **crowd surveillance**, **anomaly tracking**, and **emergency response workflows**, designed to support events with **5M+ attendees**.
- Integrated **OpenAI/Gemini intelligence** with **TensorFlow** and **OpenCV** pipelines to generate live safety analytics, heatmaps, and automated alerts, reducing response delays by **35%**.

GearGuard | *Next.js, TypeScript, MongoDB, Express.js*

Github

- Built an **enterprise maintenance platform** with **7+ modules** for equipment tracking, workflows, and **real-time KPI dashboards**.
- Developed **automated maintenance workflows** with **Kanban tracking**, scheduling, and **JWT-based access control**, improving operational efficiency by **40%**.

ACHIEVEMENTS & CERTIFICATES

Google Gen AI Exchange Program

Certificates

Anthropic Claude - 18-Course Certification

AWS Generative AI for Developer

Finalist - Odoo x Adani University Hackathon

Finalist - Smart India Hackathon 2023
