EDUCATION

LDRP-ITR

B.E. in Computer Engineering; CGPA: 7.3

Gandhinagar, Gujarat

Sep. 2022 – June 2026

TECHNICAL SKILLS

Full Stack Development: React.js, Tailwind CSS, Node.js, Express.js, RESTful APIs, MongoDB, Firebase

Languages: C/C++, Python, JavaScript, Java

AI/ML and Cloud: Machine Learning, Data Cleaning & Preprocessing, Generative AI, Google Cloud

Tools and Utilities: Github, VS code, Vercel, Postman, Google Colab

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Database Management System

EXPERIENCE

IBM SkillsBuild & AICTE

June 2025 – July 2025

AI/ML - Intern

- Completed a **6-week AI/ML internship** focused on supervised learning, CNN-based classification, and scalable model deployment.
- Earned **2 IBM SkillsBuild certifications**, covering **25+ ML modules** and **10+ structured assessments**, while delivering applied projects under Edunet mentorship.

Shell India & Edunet Foundation

June 2025 – July 2025

AI/ML & Data Analytics Intern

- Built **EcoVision**, an AI-powered e-waste classification system with **10+** core features (upload, dashboard, eco-tips, reports, gamified quiz, voice assistant, disposal finder, environmental impact certificates, chatbot), increasing user engagement by **40%**.
- Developed a functional **MERN stack** website using **TypeScript**, **Tailwind** and **Python CNN ML** models; integrated **3+** third-party **APIs**, **JWT** authentication, and **Cloudinary**.
- Achieved **90%+** image classification accuracy on **500+** images through CNN ML models and optimized training.

PROJECTS

JobLink — EJS, Node.js, Express.js, MongoDB

Github

- Online Job Portal** enabling **100+** job postings, **50+** application tracking events, and secure role-based access for 3 user types.
- Implemented **bcrypt.js authentication** for secure user login and data protection.
- Optimized **MongoDB queries**, improving data retrieval speed by **30%**.

DocuMind — AI/ML, MERN stack, Razorpay, RestfulAPIs

Github

- AI-powered legal services platform enabling **90% accurate** lawyer search by expertise, experience, and reviews, with **50+** legal resources and secure client-lawyer messaging.
- Integrated real-time booking for virtual/in-person consultations with automated reminders and secure payment processing, reducing scheduling delays by **35%**.

SmartPAY — Python, Scikit-learn, Pandas, NumPy

Github

- Developed ML-based salary prediction system for employees using regression models, trained on **3,000+** historical salary records with **85%+** prediction accuracy.
- Automated salary estimation workflows, reducing HR manual workload by **60%** and improving decision-making.

ACHIEVEMENTS & CERTIFICATES

Google Gen AI Exchange Program

Certificates

Python for Data Science - NPTEL

Smart India Hackathon - 2023

AWS Generative AI for Developer

Accenture Software Engineering Job Simulation

TCS ION Career Edge - Young Professional
